Loaded With Quality

Action Ammo has grown to become a leader in the ammunition field based almost entirely on the quality of the product they deliver. A few short years ago, the line consisted of a limited list of military loads Israel Military Industries supplied to the Israel Defense Forces.

As shooters became familiar with the ammunition, they asked for more loadings. Action Ammo has grown to meet that demand and now has a complete line covering most shooters' pistol and rifle needs. This year the rifle offering has been further expanded with new rounds from .222 Remington to .30-'06 Spfld.

© 1989 Action Ammo, Ltd.

Loaded With Quality.

Top Components

Action Ammo starts right at the beginning to assure a quality end result. The components of every round are engineered to the most rigorous standards. Most components are designed and manufactured by Israel Military Industries for each cartridge and specific loading.

The Toughest Quality Control

Every round manufactured for Action Ammo by IMI has survived the most stringent mil-spec quality assurance procedures: the toughest in the world. Whether trying to put together a small group or bring home a huge buck, the shooter can confidently rely on Action Ammo. No ammunition — military or sporting — is more carefully manufactured.

Top Performance

Consistent, superior performance comes from the best components, loaded with the utmost care, backed by tough performance testing. Samson® and UZI® brand ammunition are good examples of this concept.

Look at the .41 Action Express. It is redefining the standards for high performance pistol rounds: .357 Magnum energies in 9mm sized handguns. There are also loads which radically upgrade the performance of both the 9mm and the .45 ACP.

Specialty Loadings

Look at the complete Action Ammo line. All of the most popular loads are offered, but there are also some specialty rounds that set Action Ammo apart: subsonic 9mm, high-velocity .45 ACP, heavy bullet .223, even .50 military ball. For just about every shooting situation, Action Ammo is loaded with quality.
